SOAK-OFF
GEL POLISH

THE INNOVATORS OF
BRUSH-ON SOAK-OFF GEL POLISH.

LIGHTER.
STRONGER.
EASIER.

Impossible?
No — Poly**GEL**®.

Not an acrylic, not a hard gel, Gelish® Poly**GEL**® combines the best of both in a revolutionary all-in-one system that's undeniably better!

Years in development and extensively salon tested; users agree that Gelish® Poly**GEL**® delivers strong, flexible, feather light nails, with NO monomer odor and NO Airborne Dust, that nail techs and clients can count on!

**NO RATIOS,
NO RUNNING,
NO CHASE,
NO WASTE!**

Poly**GEL**® is an all-in-one formula for the perfect working consistency. No monomer, no mixing, no ratios, odorless! The formula allows you to work as fast or as long as you want. Tube dispensing allows you to use just what you need for no wasted product.

Formulated using a game-changing polymer fusion, Poly**GEL**'s breakthrough TriPolymer Technology™* delivers gravity-defying performance for astonishingly easy, chase-free applications. The unique putty-like viscosity ensures smooth, flawless nails and even color. Poly**GEL**'s formulation combines acrylic powder for strength in a gel base with photo initiators providing workability and no monomer odor. And, the heavier-than-air TriPolymer fillings are 30% heavier than acrylic and hard gel filings, which means they fall to the table for virtually no airborne dust.

*TriPolymer Technology = Oligomers from Gels; Polymers from Acrylics; Polymers from Lacquer

SO UNIQUE IT'S PATENT PENDING

GELISH[®] PolyGEL[®]

23% lighter than acrylics,
16% lighter than traditional hard
gels with no sacrifice to durability.

Supreme adhesion, no lifting or
separation during wear.

Works perfectly as either
a sculpting or tip overlay
application.

LIGHT

Salon clients won't know they're wearing enhancements.

STRONG

Stronger than hard gels for unstoppable nails.

SAFE

Monomer-free, NO airborne dust.

EASY

Unlimited playtime and zero chasing.

FLAWLESS

Suited for everyone from students to experienced professionals.

SLIP SOLUTION

Not a monomer. Patent-pending Slip Solution effortlessly glides Poly**GEL**® into place for the perfectly shaped nail. Eliminates friction for drag free shaping. Does not activate curing.

REVOLUTIONIZES THE LIQUID CATEGORY.
INDUSTRY'S SAFEST LIQUID.
7-FREE FORMULA.

BRUSH RESTORER

Poly**GEL**® Brush Restorer revives brushes to help maintain shape and integrity of the bristles ensuring a flawless application.

Poly**TOOL**™

Patent-pending multi-purpose tool with a synthetic #10 brush on one end and a spatula on the other. The Poly**TOOL**™ makes applying Poly**GEL**® a breeze!

3 SIMPLE STEPS

STEP 1

Squeeze, slice, and roll.
Squeeze just the right amount of PolyGEL® out of the tube, slice product with your PolyTOOL™. Roll onto nail.

STEP 2

Using your brush and a small amount of Slip Solution, shape product into place. Use with PolyTOOL™ or a short, firm synthetic brush.

STEP 3

Cure 30 seconds in 18G Plus LED Light.
60 seconds for soft and bright white.

30-50 applications per tube, depending on sculpt or overlay application.
